BUFFET

La combinazione tra **prodotti in effetto cemento, porcellana e melamina** permette di creare allestimenti equilibrati e dinamici, in cui **elementi dal forte carattere materico** si alternano a soluzioni più leggere e funzionali. Questa versatilità rende la collezione adatta a contesti molto diversi, dagli eventi eleganti ai buffet informali, dagli hotel ai servizi di catering per cerimonie e occasioni speciali. Tutti i materiali sono progettati per rispondere alle **esigenze del mondo professionale**, garantendo affidabilità, sicurezza e facilità di gestione durante il servizio.

The combination of cement-effect, porcelain and melamine products allows you to create balanced and dynamic settings, in which elements with a strong material character alternate with lighter and more functional solutions. This versatility makes the collection suitable for a wide range of contexts, from elegant events to informal buffets, from hotels to catering services for ceremonies and special occasions. All materials are designed to meet the needs of the professional world, ensuring reliability, safety and ease of management during service.

TAVOLA

Ab+ By Abert propone una collezione completa di elementi pensati per trasformare ogni tavola in un'esperienza estetica e funzionale, dove design contemporaneo e materiali di qualità dialogano armoniosamente. Piatti, bicchieri, accessori e complementi sono studiati per rispondere alle esigenze della **ristorazione professionale**, con soluzioni che uniscono praticità e resistenza a una forte personalità estetica. Ogni pezzo nasce per integrarsi in modo naturale con gli altri, creando allestimenti coerenti, eleganti e sempre attuali, dalla **mise en place più informale a quella più scenografica**.

Ab+ By Abert offers a complete collection of items designed to transform every table into an aesthetic and functional experience, where contemporary design and quality materials interact harmoniously. Plates, glasses, accessories and complements are designed to meet the needs of professional catering, with solutions that combine practicality and durability with a strong aesthetic personality. Each piece is created to integrate naturally with the others, creating coherent, elegant and timeless settings, from the most informal to the most spectacular mise en place.

LIGHTING

Ab+ By Abert presenta una linea di lampade progettate per **valorizzare ogni ambiente** con una luce funzionale ed espressiva, dove **estetica contemporanea** e **materiali di qualità** convivono in equilibrio.

Le lampade sono pensate per il **mondo hospitality**, offrendo soluzioni pratiche, resistenti e riconoscibili. Ogni modello permette **composizioni raffinate e versatili**, adatte sia ad atmosfere intime sia a scenari più spettacolari, per contesti professionali moderni e dinamici, sempre coerenti con identità progettuali contemporanee, ricercate e autentiche.

Ab+ By Abert presents a line of lamps designed to enhance any environment with functional and expressive lighting, where contemporary aesthetics and quality materials coexist in perfect balance. The lamps are designed for the hospitality sector, offering practical, durable and recognisable solutions. Each model allows for refined and versatile compositions, suitable for both intimate atmospheres and more spectacular settings, for modern and dynamic professional contexts, always consistent with contemporary, refined and authentic design identities.

La confezione contiene una speciale dima di plastica trasparente (A) utile per ritagliare appositi pezzi di stoffe o carta (stampabili su formato A3,) da inserire sotto la calotta di plastica della fonte luminosa, per una personalizzazione su misura. Nella confezione è presente anche una fascia decorativa neutra (B), realizzata in uno speciale tessuto (preinserito) della dimensione corretta, corrispondente alla dima di plastica. Questa fascia va inserita a contatto con la lampada, prima della carta opportunamente ritagliata (E), per conferire un tocco materico ed elegante a ogni materiale utilizzato per la personalizzazione.

The package contains a special transparent plastic template (A) useful for cutting out pieces of fabric or paper (printable on A3 format,) to be inserted under the plastic cap of the light source, for customised personalisation. Also included in the package is a neutral decorative band (B), made of a special fabric (pre-inserted) of the correct size, corresponding to the plastic template. This band is inserted in contact with the lamp, before the appropriately cut paper (E), to give a textual and elegant touch to each material used for customisation.
